

Shake, Rattle Roll

A fibre sculpture workshop with Aly de Groot

FUN!

“This workshop works well with people of all ages”.

Join the highly talented Aly de Groot and discover the passion that makes her such an acclaimed artist world-wide. Included in her workshops are elements of experimentation, discovery, and traditional practice using natural art and recycled materials.

Make a noisy shaker which can be used in the children’s parade, or learn basket making techniques. Take the opportunity to learn and observe a talented artist up close.

There will be two x 2 hour workshops - one in the morning and one in the afternoon. You can join informally during that time.
